TaeguTeconomics

What is TaeguTeconomics?

TaeguTeconomics is a fully integrated philosophy that incorporates profitability, increased productivity and expert knowhow in order for TaeguTec customers to stay ahead of the competition.

**Want to reduce
your manufacturing cost?**

Adopt TaeguTeconomics!

IMPROVED PROFITABILITY
WITH NEW PRODUCTS

Improving The Bottom Line

TaeguTec's cutting tools promotes savings by improving the production process which positively trickles down to affect all aspects of a manufacturer's cost structure.

Optimizing for a Cost Effective, Smooth Flowing Production Line

TaeguTec offers an all-encompassing program that utilizes its machining technology and knowledge across all industrial areas.

The program takes the customer from the beginning of the operation through the tryouts towards the final goal of improving the overall machining process.

Due to its wealth of hands-on experience by highly qualified engineers, TaeguTec delivers effective results beyond the customer's expectations.

Process optimization - Eliminate Bottlenecks

What we do

What you get

Working with You to Cut Cost

The cornerstone of the Total Cost Reduction program is flexibility and modularity. We deliver a tailored solution based on a comprehensive tool and process audit. Together with our customers, we define the scope of services and targets and then formulate a plan that will achieve tangible results. This partnership assists customers to focus on delivering high quality parts on time at competitive prices.

MATRIX FOR COST
OPTIMIZATION

Power of a Warehouse in Your Hands

Whatever your storage and tool management needs, the new MATRIX Series 5 is the ultimate solution. It comes in 2 sizes – the MAXI and MINI – and is fully scalable and modular. Its powerful software does it all with a range of easy to use and clever features. The MATRIX significantly reduces the tool handling costs by automating and simplifying many of the daily processes, and also provides a useful database for tool and process improvement.

Reduce hidden tool cost with MATRIX

Automatic cabinet for tool dispensing and management.

- Software and hardware combined product
- Possible to store hundreds of different parts
- Apply interoperable software package

Automates the Collection of Carbide Scrap for Recycling

- Users throw carbide scrap into electronic container
- Every hour the scrap is weighed
- When it reaches a pre-set maximum weight, an alert is emailed to collect

TURNKEY PROJECT
SUPPORT PROGRAM

Maximize Your Return on Investment

TaeguTec supports customers with tooling services that begin by collaborating with the machine builder to make 100% use of the equipment's capability.

- Providing tooling services for the machine builder and the end user when a capital equipment investment is made.
- Recommending the optimum tools, fixtures and interference checks plus delivering exceptional cycle times through meetings with the customer.
- TaeguTec supports a company's tooling project by offering a total implementation tryout service that handles everything from the initial to the mass production stage.
- Product Testing and Technical support.
- Actively aims to raise productivity and cut costs after the process or project has stabilized.

TECHNICAL TRAINING

Education for The Future

All clients with an interest in TaeguTec products can attend these programs to learn how to implement our Cost Reduction Technology programs.

- A comprehensive curricula including customized programs according to the customer's level of expertise, interest and language as well as industry sector.
- New products seminars including demonstrations, new technologies and a plant tour.

General Programs for Cost Reduction

Finding Machining Solutions

Our Tech Center tests, evaluates and suggests the best cutting tools for your machining conditions no matter the material used. From steel to inconel and other difficult to machine alloys, our Tech Center will find the right solution for your pilot, prototype or existing product by performing tests that emulate real-world working conditions.

Logistics System for Cost Reduction

The efficient control of a company's stock is part of the aggressive cost reduction activities we offer which deliver immediate results by positively impacting tooling expenditures.

In doing so, TaeguTec delivers standard products within one day upon confirmation of the order. Our high service level for all products, which includes the supply and delivery of special tools, is rooted in TaeguTec's exceptional logistic control.

We do the winning moves for you.

TaeguTeconomics, by all means!
